## PREFATORY NOTE.

---

It has long been the design of the Fraternity to issue a Catalogue and History of Kappa Sigma which would be complete and creditable in every particular. Soon after the Richmond Conclave of 1894, the compilation of such a volume was intrusted to my hands. The immense labor and expense involved, however, resulting from the total lack of published data and other adequate sources of information, has been found to materially retard the work and to defer its publication.

Last October, in my Report to the Twelfth Biennial Grand Conclave, a recommendation was made that "the Fraternity issue at once a *Directory of Kappa Sigma*, to satisfy in a measure the pressing demand for the Catalogue." In the reasons given the purpose was emphasized that the Directory should not be a substitute for, but rather a forerunner of the more elaborate "Catalogue and History." The present volume is the outcome of the adoption of that recommendation.

The production of a book which would be a real auxiliary to the perfecting of the Catalogue has been my chief purpose; and it is my desire that it shall be regarded as a means rather than an end. Practical utility, however, has been constantly aimed at; and it is hoped that this volume, imperfect and incomplete as it inevitably is, may incidentally serve a worthy mission to the Fraternity at large in the interim before the appearance of the contemplated Catalogue.

Cordial acknowledgments are made to a score or more of interested Kappa Sigmas all over the land who have in various ways made my task lighter. To Bro. Herbert M. Martin (Eta), W. G. S., who, in his official capacity, also read the proofs of the Chapter Rolls, I am indebted for valuable suggestions.

In the mechanical make-up of the page, provision has been made, as will be seen, for the proper entry of corrections and additions, as changes are made in the addresses of members. This provision, if heeded, will enable each possessor to keep his Directory up to date.

All initiates reported up to March 15 are included herein. The tardiness of some Chapters in reporting and of a number of individuals in returning blanks, has necessitated the irregular insertion of much of the information, thus marring the symmetry of the book.

Asking the indulgence of the Fraternity for many errors and shortcomings,  
I am, Fraternally,

GEORGE VAUGHAN (Xi).
